

August 31, 2018

Mr. Dan Patenaude  
Sealcoating, Inc.  
825 Granite Street  
Braintree, MA 02184

Dear Dan,

Congratulations! We would like to take the opportunity to recognize Sealcoating, Inc. as the first company to complete the AASHTO TSP-2 Company Certification. We thank you for your commitment to delivering high quality preservation treatments. Enclosed with this letter is a plaque that recognizes Sealcoating, Inc.'s AASHTO TSP-2 Company Certification in Slurry Systems.

The company certification is valid through 12/31/2019 and is listed on the TSP-2 website at <https://www.tsp2.org/certification-information/certified-companies/>. At the time of your renewal, you will need to provide an updated list of the company's key employees and internal training records. A description of the training performed and attendance sheets will suffice for a record of in-house training. Just a reminder that training shall include:

- A minimum of 4 hours classroom training for each field employee. This can be performed by the company in-house trainer or through continuing education such as the ISSA Slurry Systems Workshop.
- A minimum of 4 hours of on-the-job training (OJT) for each field employee.

We wish you continued success in the application of slurry system treatments. If you have any questions regarding your AASHTO TSP-2 Company Certification, please feel free to contact us at your convenience.

Sincerely,

A handwritten signature in blue ink that reads "Neal Galehouse". The signature is fluid and cursive, with a long horizontal stroke at the end.
